## DETAILED ACTION

### ***Claim Objections***

Claims 2-5 are objected to because of the following informalities: the expression "Cl." In the claims should be changed to - - claim - -. Claims 4 and 5 lack periods at the end of the sentences. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Russell (US Patent No. 5,056,790).**

**Regarding claim 1,** Russell discloses a golf practice device (see Fig. 1) including a support (25), line (combination of 17, 18, 35, 38), a ball (16) attached to one end of the line, the line fixed at the other end to the support (24), and an energy absorption device (27).

**Regarding claim 2,** Russell discloses scale (33).

**Regarding claim 3,** the left side of the device that is connected to ball 16 as shown on Fig. 1 is considered as the loop section.

**Regarding claim 4,** the energy absorption device (27) is capable of dissipating most of the kinetic energy of a struck ball.

**Regarding claim 5,** the line of Russell is capable of stretching when the ball is struck because element 38 that is part of the line is an elastic band.
